INTRO

First and foremost, the BarrelQ is a super cool barbecue. A basket hangs in the barrel (60 or 200 L). You put charcoal or briquettes in it, put the grid on it and grill. Meat, fish, vegetables. What you like.

But the BarrelQ is also a fire pit. Throw some wood in the basket, light it and the flames rise nicely above the barrel. Burn Baby Burn. And if you're not using the BarrelQ as a barbecue or fire pit, use it as a standing table. With the lid supplied as standard, it is a very sturdy side table. It fits a lot of beers! :) Or bottles of wine. Again, whatever you like.

BARRELQ BIG AND SMALL

The BarrelQ Big is a 200-liter oil drum with a steel basket and grillage. But it is not only a fantastic barbecue, The BarrelQ can also be used as a firepit and side table. Super multi-functional! The one and only ... **The Original BarrelQ BBQ.**

That barrel takes a beating like a champ and is **incredibly durable**. Not only for the ones who prefer an industrial design this barbecue **guarantees to be the stunner** in every backyard.

This charcoal grill is the highlight at every party. Everyone will want to be a BarrelQer after that night.

The BarrelQ is a very user-friendly barbecue. A couple of charcoal briquettes, light up the fire, grillage on top and the adventure can begin. After a successful dinner, throw a little wood in the basket and turn your BarrelQ into the ultimate firepit. The coziest barrel ever created!

- 100% recycled
- Inside coating
- Provided with lid and clamp

Teppanyaki plate

Japanese cuisine now for your BarrelQ! The Teppanyaki grill plate creates an oriental atmosphere and guarantees a breathtaking barbecue experience. The 6 mm thick iron plate stores heat significantly longer than the everyday grillage. Side note ... Teppanyaki literally means "iron plate".

Japanese cooking is all about healthy eating. Quality, the freshness of the ingredients and a sufficient amount of nutrients are very important. Vegetables, meat and fish should therefore touch the grill plate as short as possible to avoid burning essential nutrients.

In addition, this type of cooking requires little to no oil. This is much healthier and improves the taste of your dish. Especially if you turn your vegetables or meat regularly, you and your guests are guaranteed a feast.

The Teppanyaki grill plate is easy to maintain and can be cleaned quickly thanks to the smooth surface.

But above all, this accessory is an absolute allrounder and must-have for every true

Cover

The BarrelQ barbecues are a robust and durable charcoal grill. It withstands the toughest weather conditions but survives it much better with the right protection. That is why we have innovated a sturdy cover to protect your bad boy from unnecessary dirt and wear. Since the first impression always counts, comes the cover with a stylish BarrelQ logo.

The BarrelQ Big Cover is 100% water-resistant and is made of high quality (600d) polyester.
